

**RULES FOR SUBMISSION OF THESIS AS A COMPENDIUM OF  
PUBLICATIONS  
Ph.D NEUROSCIENCE PROGRAM - UAB  
(February 2014)**

**REQUIREMENTS**

It is possible to submit the thesis as a compendium of publications when the student has published (or accepted) a minimum of two original research articles listed in journal included the Journal Citation Reports. At least one in one paper the student must be the first author.

*Publications remarks:*

1 - Publications cannot be used in more than one thesis. This includes the publications in which the PhD student is not listed as first author.

2 - Publications must have been published or accepted for publication after the start of the doctorate. Reference date will be the date of registration in the Ph.D. program.

3 - For a publication to be accepted, it must include the affiliation of the student to the UAB.

4 - None of the co-authors of the research papers could be a member of the thesis's evaluation committee.

5 - Manuscripts submitted for publication do not count for the number of publications needed to present the thesis as a compendium but they may nevertheless be annexed as complementary documentation.

**STYLE:**

The thesis presented, as a compendium of publications will contain the following sections:

1 - A general introduction where the work done is presented and should include a justification of the unitary topic of the thesis.

2 - Description of the objectives

3 - A global summary of the results and a general discussion section

4 - The final conclusions

5 - A copy of the publications included in the thesis.

## PROCEDURE:

The doctoral student shall submit to the INc administration the following documentation:

- 1 - Report of the director of the thesis (and of tutor if any) which indicated the suitability of present the thesis as a compendium of publications.
- 2 - Copy of publications.
- 3 - Acceptance in writing of all Ph.D. co-authors.
- 4 - Compromise of all pre-doctoral co-authors of the publications presented to do not use these publications for another Ph.D. thesis presented as a compendium of publications.

All the forms can be downloaded from the website of the Institute of Neuroscience .

The Academic Committee of the PhD in Neuroscience will study documentation provided and will communicate its final decision to the candidate within a maximum period of one month.
