

ALTRES PUBLICACIONS SELECCIONADES (2013-2008)

OTRAS PUBLICACIONES SELECCIONADAS (2013-2008)

OTHER SELECTED PUBLICATIONS (2013-2008)

- Daviu N, Rabasa C, Nadal R, Armario A.
Comparison of the effects of single and daily repeated immobilization stress on resting activity and heterotypic sensitization of the hypothalamic-pituitary-adrenal axis.
Stress. **2014**, 17(2):176-85
- Echeverry-Alzate V, Giné E, Bühler KM, Calleja-Conde J, Olmos P, Gorriti MA, Nadal R, Rodríguez de Fonseca F, López-Moreno JA.
The Effects of Topiramate on Ethanol-Cocaine Interactions and DNA Methyltransferase Gene Expression in the Rat Prefrontal Cortex.
Br J Pharmacol. **2014**; 171 (12): 3023-36
- Gagliano H, Delgado-Morales R, Sanz-Garcia A, Armario A.
High doses of the histone deacetylase inhibitor sodium butyrate trigger a stress-like response.
Neuropharmacology. **2014**;79:75-82.
- Armario A, Nadal R.
Searching for biological markers of personality: are there neuroendocrine markers of anxiety?
In: Durbano F (Ed.) New insights into anxiety disorders. InTech, **2013**, 71-104.
- Armario A, Nadal R.
Individual differences and the characterization of animal models of psychopathology: a strong challenge and a good opportunity.
Front Pharmacol. **2013**;4:137.
- Rabasa C, Delgado-Morales R, Gómez-Román A, Nadal R, Armario A.
Adaptation of the pituitary-adrenal axis to daily repeated forced swim exposure in rats is dependent on the temperature of water.
Stress. **2013**;16(6):698-705.
- Feliu-Soler A, Pascual JC, Borràs X, Portella MJ, Martín-Blanco A, Armario A, Alvarez E, Pérez V, Soler J.
Effects of Dialectical Behaviour Therapy-Mindfulness Training on Emotional Reactivity in Borderline Personality Disorder: Preliminary Results.
Clin Psychol Psychother. **2013**. Epub ahead of print

- Rotllant D, Pastor-Ciurana J, Armario A.
Stress-induced brain histone H3 phosphorylation: contribution of the intensity of stressors and length of exposure.
J Neurochem. **2013**;125(4):599-609.
- Daviu N, Delgado-Morales R, Nadal R, Armario A.
Not all stressors are equal: behavioural and endocrine evidence for development of contextual fear conditioning after a single session of footshocks but not of immobilization.
Front Behavioral Neurosci, **2012**, 6: 69
- Fodor A, Klausz B, Pintér O, Daviu N, Rabasa C, Rotllant D, Balazsfi D, Kovacs KB, Nadal R, Zelena D.
Maternal neglect with reduced depressive-like behavior and blunted c-fos activation in Brattleboro mothers, the role of central vasopressin.
Horm Behav. **2012**; 62(4): 539-51.
- Belda X, Daviu N, Nadal R, Armario A.
Acute-stress induced sensitization of the pituitary-adrenal response to heterotypic stressors: independence of glucocorticoid release and activation of CRH1 receptors.
Horm Behav, **2012**; 62(4): 515-24.
- Lanza JF, Sanchez-Roige S, Gagliano H, Fuentes S, Bayod S, Camins A, Pallàs M, Armario A, Escorihuela RM.
Physiological and behavioural consequences of long-term moderate treadmill exercise.
Psychoneuroendocrinology. **2012**; 37 (11): 1745-54.
- Armario A, Daviu N, Muñoz-Abellán C, Rabasa C, Fuentes S, Belda X, Gagliano H, Nadal R.
What can we know from pituitary-adrenal hormones about the nature and consequences of exposure to emotional stressors?
Cell Mol Neurobiol. **2012**; 32 (5): 749-58.
- Delgado-Morales R, del Río E, Gómez-Román A, Bisagno V, Nadal R, de Felipe C, Armario A.
Adrenocortical and behavioural response to chronic restraint stress in neurokinin-1 receptor knockout mice.
Physiol Behav. **2012**;105(3): 669-75.
- Andero R, Daviu N, Escorihuela RM, Nadal R, Armario A.
7,8-dihydroxyflavone, a TrkB receptor agonist, blocks long-term spatial memory impairment caused by immobilization stress in rats.
Hippocampus. **2012**;22(3): 399-408.

- Rotllant D, Armario A.

Brain pattern of histone H3 phosphorylation after acute amphetamine administration: Its relationship to brain c-fos induction is strongly dependent on the particular brain area. Neuropharmacology. **2012** ;62(2):1073-81.

- López-Gallardo M, López-Rodríguez AB, Llorente-Berzal Á, Rotllant D, Mackie K, Armario A, Nadal R, Viveros MP.

Maternal deprivation and adolescent cannabinoid exposure impact hippocampal astrocytes, CB1 receptors and brain-derived neurotrophic factor in a sexually dimorphic fashion.

Neuroscience. **2012**;204:90-103.

- Ribeiro Do Couto B, Daza-Losada M, Rodríguez-Arias M, Nadal R, Guerri C, Summavielle T, Miñarro J, Aguilar MA.

Adolescent pre-exposure to ethanol and 3,4-methylenedioxymethylamphetamine (MDMA) increases conditioned rewarding effects of MDMA and drug-induced reinstatement.

Addict Biol. **2012**;17(3):588-600.

- Hoffmann HM, Nadal R, Vignes M, Ortiz J.

Chronic cocaine self-administration modulates ERK1/2 and CREB responses to dopamine receptor agonists in striatal slices.

Addict Biol. **2012**;17(3):565-75.

- Muñoz-Abellán C, Rabasa C, Daviu N, Nadal R, Armario A.

Behavioral and endocrine consequences of simultaneous exposure to two different stressors in rats: interaction or independence?

PLoS One. **2011**;6(6):e21426.

- Llorente-Berzal A, Fuentes S, Gagliano H, López-Gallardo M, Armario A, Viveros MP, Nadal R.

Sex-dependent effects of maternal deprivation and adolescent cannabinoid treatment on adult rat behaviour.

Addict Biol. **2011**; 16(4):624-637.

- Alobid I, de Pablo J, Mullol J, Centellas S, Parramon G, Carrasco J, Armario A, Bernal-Sprekelsen M.

Increased cardiovascular and anxiety outcomes but not endocrine biomarkers of stress during performance of endoscopic sinus surgery: a pilot study among novice surgeons.

Arch Otolaryngol Head Neck Surg. **2011**;137(5):487-92.

- Do Couto BR, Rodríguez-Arias M, Fuentes S, Gagliano H, Armario A, Miñarro J, Aguilar MA
Adolescent pre-exposure to ethanol or MDMA prolongs the conditioned rewarding effects of MDMA.
Physiol Behav. **2011**;103(5):585-93.
- Rabasa C, Muñoz-Abellán C, Daviu N, Nadal R, Armario A.
Repeated exposure to immobilization or two different footshock intensities reveals differential adaptation of the hypothalamic-pituitary-adrenal axis.
Physiol Behav. **2011**; 103(2):125-33.
- Rabasa C, Delgado-Morales R, Muñoz-Abellán C, Nadal R, Armario A.
Adaptation of the hypothalamic-pituitary-adrenal axis and glucose to repeated immobilization or restraint stress is not influenced by associative signals.
Behav Brain Res. **2011**; 217(1):232-9.
- Andero R, Heldt SA, Ye K, Liu X, Armario A, Ressler KJ.
Effect of 7,8-Dihydroxyflavone, a Small-Molecule TrkB Agonist, on Emotional Learning.
Am J Psychiatry. **2011**;168(2):163-72.
- Ons S, Rotllant D, Marín-Blasco IJ, Armario A.
Immediate-early gene response to repeated immobilization: Fos protein and arc mRNA levels appear to be less sensitive than c-fos mRNA to adaptation.
Eur J Neurosci. **2010**;31(11):2043-52.
- Armario A.
Activation of the hypothalamic-pituitary-adrenal axis by addictive drugs: different pathways, common outcome.
Trends Pharmacol Sci. **2010**;31(7):318-25.
- Daviu N, Fuentes S, Nadal R, Armario A.
A single footshock causes long-lasting hypoactivity in unknown environments that is dependent on the development of contextual fear conditioning.
Neurobiol Learn Mem. **2010**;94(2):183-90.
- Peña Y, Prunell M, Rotllant D, Armario A, Escorihuela RM.
Enduring effects of environmental enrichment from weaning to adulthood on pituitary-adrenal function, pre-pulse inhibition and learning in male and female rats.
Psychoneuroendocrinology. **2009**;34(9):1390-404.

- Belda X, Rotllant D, Fuentes S, Delgado R, Nadal R, Armario A.
Exposure to severe stressors causes long-lasting dysregulation of resting and stress-induced activation of the hypothalamic-pituitary-adrenal axis.
Ann N Y Acad Sci. **2008**;1148:165-73.
- Belda X, Fuentes S, Nadal R, Armario A.
A single exposure to immobilization causes long-lasting pituitary-adrenal and behavioral sensitization to mild stressors.
Horm Behav. **2008**;54(5):654-61.
- Muñoz-Abellán C, Andero R, Nadal R, Armario A.
Marked dissociation between hypothalamic-pituitary-adrenal activation and long-term behavioral effects in rats exposed to immobilization or cat odor.
Psychoneuroendocrinology. **2008**;33(8):1139-50.
- Armario A, Escorihuela RM, Nadal R.
Long-term neuroendocrine and behavioural effects of a single exposure to stress in adult animals.
Neurosci Biobehav Rev. **2008**;32(6):1121-35.
- Carrasco J, Márquez C, Nadal R, Tobeña A, Fernández-Teruel A, Armario A.
Characterization of central and peripheral components of the hypothalamus-pituitary-adrenal axis in the inbred Roman rat strains.
Psychoneuroendocrinology. **2008**;33(4):437-45.
- Gagliano H, Fuentes S, Nadal R, Armario A.
Previous exposure to immobilisation and repeated exposure to a novel environment demonstrate a marked dissociation between behavioral and pituitary-adrenal responses.
Behav Brain Res. **2008**;187(2):239-45.
